- ***Service Provider***
- Log in to the system as an admin. Add service information into the system (with service ID, description, category, price, and service name). View the list of services available, and by selecting them individually, see their details in a new window. Click on one service and update its properties. Delete one service from the system. Log out and log in as a customer. List all the services. Select one and see its details in a separate window. Choose one service and add it to your cart. Then, go and check your cart.

- Log in to the system as a provider and register yourself in the system. Register with your name, surname, email address, password, and phone number. You should enter the services that you will offer and wait for confirmation from admins. You need to see your application for registration to the system, and it should be "Pending" initially. Log out and log in as admin. See the approval-waiting providers. Show that you can approve and reject one provider. Log out and log in as a customer. See the list of services and choose one. After choosing it, add it to the cart, select a provider, and enter the service date. Once you complete your booking order, the status of your booking request becomes "Pending," see this in your booking history. Log out and log in as a provider. Show that you can accept or reject a booking (show them with at least one example). Log out and log in as a customer, check your booking history, and show the update in the booking status ("Confirmed"/"Rejected").

- Log in to the system as a customer. Change the status of your "Confirmed" booking orders to "Completed." Review your provider based on the service. There should be a comment and rating (from 0 to 10). Once you complete your review, the provider's rating changes. Initially, the ranking of a provider is null, but after a review, the rating score of the provider becomes the average of ratings. Log out and log in as an admin. See the list of providers. Disconfirm the providers with low service scores (rating averages). See the updated list of confirmed providers.
